POLICE RECOVER BODY OF YOUTH OF SEVENTEEN

TO KNOW GERMANY'S DECISION TODAY

London, Aug. 15.—Before night the inter-allied conferees on the Dawes plan are expected to know whether Germany is willing to accept Premier Herriott's proposal for Franco-Belgian evacuation of the Ruhr.

Until well past midnight, the German delegates were in conference over the proposal and periodically in touch with Berlin by cable and phone. Early this morning, it is understood, they received President Ebert's preliminary reply to the proposal, but were awaiting final instructions. Upon the final reply hangs the fate of Europe and likewise the fate of the weeks of conferring on the vaxatious reparations problem.

Ebert's preliminary answer was sent in a special code, and the key to it is in the possession of Chancellor Marx only. Every effort was made to guard the answer. Marx informed only Foreign Minister Stresemann and Dr. Luther, financial minister, of the contents.

At 1.30 a. m., Marx was in thirty minutes' conversation with President Ebert by long distance telephone. Twice afterwards Marx was called from bed to answer the long distance phone, presumably for discussion of points involved in Ebert's final answer.

Despite Prime Minister MacDonald's request that he be informed at the earliest possible moment of Berlin's action, the German delegation did not notify him. Apparently the answer is being saved for presentation to the "big fourteen" later today.

After receiving the answer from Berlin, the next stages of the Dawes conference are speculative. If the Germans refuse Herriott's proposal it is understood that Prime Minister MacDonald has an alternate proposal believed to be acceptable to the Germans.

Should the Germans reject the Herriot proposal it will mean a prolonging of the conference, of course. Practically the entire protocol has been drawn up and the fate of the weeks of deliberation rests entirely upon German acceptance.

High Principal To Succeed Prof. H.E. Gress

Prof. C. R. McClelland, for the past three years principal of the Monessen High school, was elected by the directorate of the Monessen schools to serve for two years, the unexpired term of Superintendent H. E. Gress who resigned to accept a more lucrative berth at Lancaster, Pa.

Prof. McClelland has been connected with the Monessen schools for the past nine years, and has been in part responsible for the success of the system as carried out in that city.

W. F. Blackburn, Junior High School principal, was elected by the Monessen Board of Education to succeed Prof. McClelland in the vacancy thus occasioned, while K. F. Sterrett was named as Junior High School principal.

One vacancy exists in the schools' faculty curriculum—that of a teacher in English in the High school, Miss Hettie Hundermark resigning and will remain in New York, where she is spending the summer.

ELKS HONOR A PRETTY LADY

The Monongahela Lodge of Elks last evening fittingly entertained in honor of Miss Mariam Jones, who represented the lodge as "Miss Monongahela" in the beauty pageant held at Kennywood Park.

One hundred couples were present and among teh number was Miss Helen Steubner, of Northside, Pittsburgh who won the contest and will represent Western Pennsylvania in the International Beauty Pageant at Atlantic City during the first week of September as "Miss Pittsburgh." She was accompanied by her chaperon Mrs. William Hunter. Florence Shraeder, president of the Elks' State association and Miss Alma Jane Morris, who represented the Donora lodge as "Miss Donora," were among the honored guests.

During the evening, William Miller, exalted ruler of Monongahela Lodge No. 255, presented Miss Jones and Miss Steubner with beautiful silk umbrellas. Music for the occasion was furnished by the Euclid Serenaders and a delightful evening was spent in dancing in the beautiful hall of the new home of the Elks.

THE COYLE THEATRE NOW UNDER NEW MANAGEMENT

The Coyle Theatre passed into the hands of new management this morning, the new proprietor making his debut most auspiciously by taking over the jurisdiction of the popular amusement house at 8:30 o'clock. He has not formally announced the policy to be pursued in the conduct of the popular Coyle, but he promises the public that Mr. and Mrs. Robert S Coyle will do his every bidding, and that Mrs. Coyle, whe nshe strikes high C on the violin, will have accompliment, whether his chords attune or contrawise. With this digression, the Mail is pleased to announce that the new proprietor of the Coyle weighs nine pounds; that he is a genuine specimen of 100 per cent baby than which there is no equal in the opinion of his delighted parents; that his lung power gives evidence that he will probably add vocal culture to his other musical accomplishments; that Mrs. Coyle is doing splendidly as well as baby, and that Mr. Coyle sees in the days to come a worthy successor to himself and Mrs. Coyle, honored and beloved as they are, and to whom, in the midst of their rejoicing, they have the congratulations and felicitations of the local public and all peoples who have the honor of their acquaintance.

STATE POLICE RAID HOSTELRIES AND FIND WHISKY

Greensburg, August 15—As a result of violation of a court order in which an injunction against the sale of liquor in two New Kensington hotels was ignored contents of court [illegible] tice Whitten today by District Attorney Nevin A. Corr, against the proprietors of the Washington and Howard hotels in New Kensington.

The case is without parallel in the history of the Westmoreland county court. An injunction against the hotel owners was obtained on June 4 last, prohibiting them from selling intoxicating liquors and last Saturday the hotel owners were found to have violated the order when State police raided the hotels and found whiskey.

UNIONTOWN MAN IS NEW HEAD

Dr. Louis S. Arensberg, of Uniontown, past commander of the Pennsylvania department, was elected National commander of the G. A. R. yesterday at an executive session of the Fifty-eighth national encampment at Boston.

The veterans then chose Grand Rapids, Mich., as the city where the national encampment in 1925 will be held. San Francisco and San Diego put up a strenuous battle to have the veterans meet in California next year but were defeated.

FAMOUS FOOTBALL PLAYER DIES THIS MORNING

Francis William Myford, aged 20 years, only son of Mr. and Mrs. Frank Myford of 465 McKee avenue, Monessen, one of Monessen's most popular and well-known youths, died this morning at 4:35 o'clock, death being due to double pneumonia, following an 8-day illness.

Francis was probably one of the best known football players in the Monongahela valley, carrying an unsurpassed record of high standing. During his scholastic career he played guard for the Monessen High school team and on several occasions was selected on the All Scholastic team of the W. P. I. A. L. After graduating from the Monessen High school he entered Allegheny College at Meadville, and due to his great athletic prowess was made a member of the varsity team during his first year. Last term was the second year at Allegheny College, and he was considered one of the best linemen in Class B colleges. Through his efforts his college was able to win the championship of the year. He was also an expert swimmer and diver, and during the past few months had been acting as swimming instructor and guard at the Junior High school pool at Monessen. It is thought that being constantly in and out of the water, the danger of exposure brought on his illness, and despite the professional skill of specialists from Pittsburgh, his death occurred this morning.

Funeral services will be held Monday afternoon with interment in the Monongahela cemetery.

Paris, Aug. 15.—Germany will be admitted as a competitor in the 1928 Olympic games in Amsterdam, according to an article in the Echo de Sports published today. The international Olympic committee, it was said, has accepted two German members and has voted to lift the ban that kept Germany out of the games in Antwerp and in Paris. Austria and Hungary were admitted to the Paris games this year.

Snake Adopted By Scouts As A Mascot

Monongahela Boy Scout troops at Camp Underwood have adopted as a mascot a seven foot blacksnake which several of the larger boys recently [illegible] initiated and named "Becky," has the freedom of the camp and has living quarters in an old provision barrel.

In letters written to their home folk, the boys inform them that "Becky" is quite harmless and if the tender feeling for the mascot continues with the campers she may be brought home by them next Saturday when they break camp.

COOLIDGE GIVEN GREAT OVATION LAST EVENING

Washington, Aug. 15—A distinguished gathering of officials, diplomats and society folk turned into a cheering rally for President Coolidge when he presented his "common sense" platform to them in his acceptance speech at Memorial Hall last night.

Enthusiasm thundered through the little hall as the crowd of 2,000 acclaimed the formal opening of the Republican nominee's campaign.

Inestimable million stretched all way around the world heard by radio, the demonstration which started when Secretary of State Hughes first stepped up and called for three cheers for Coolidge. From that time on the assemblage resembled what College students call a "pep" meeting on the eve of a big football game.

The galleries roared "What's the matter with Coolidge?" and the answer came back, "He's all-right"

The greatest demonstration, however, was staged when the president, attired in conventional afternoon attire, with black coat and striped trousers, gave this keynote:

"It is well for the country to have liberality in thought and progress in action, but its greatest asset is common sense."

About 25,000 persons gathered outside the famous hall where the convention was held three years ago, and heard the proceedings through amplifiers. A huge searchlight a top a nearby building played on the cheering crowd.

Fifteen radio stations throughout the country were linked up by long distance telephone to the microphone in the hall and their broadcasting was hear, according to some estimate by as many as 25,000,000 persons.

Mr Coolidge was introduced by Frank W. Mondell, chairman of the notification committee who said that the president holds the confidence of the people.

"American people know this confidence is well deserved," Mondell said, "It has the sound and substantial basis of your faith in American principles and institutions, your confidence in the will and capacity of the American people to solve all their problems in harmony with our constitutional scheme and plan of government."

PROBLEMS OF THE FAR EAST OCCUPY HUGHES' ATTENTION

Washington, Aug. 15. — Growing problems of the Far East—involving Chinese recognition of Russia and the growth of anti-American feeling in Japan—occupied attention of Secretay of State Hughes when he returned to his desk today after a month's tour of Europe.

With an allied reparations settlement apparently in prospect, new questions of the Far East were pressed upon the secretary by officials who have been in charge during his absence.

Significance is attached to the return September 16 of American Minister Jacob Gould Schurmann from Peking, where Russian Ambassador Karakhan has signed a treaty with China and almost secured recognition from Japan. Although apparently on a vacation he is expected to bring the department news of recent developments.

Since China recognized Russia, she has shown a new spirit of independence toward the powers, especially the United States. In a sharp reply to Secretay Hughes regarding this government's $5.000,000 claim on the Chinese Eastern Railway, she has refused to recognize America's position affecting the case and said that Hughes must negotiate with China and Russia jointly.

In Tokio there has been a decided pro-Russian trend along with the anti-American sentiment incident to the immigration exclusion affair.

There is a revival here of reports that Schurmann may be appointed to fill the Tokio post made vacant by the resignation of Ambassador Cyrus E. Woods.

MANY MEN AT WORK ON THE STATE HIGHWAYS

Practically the strength of an army division is now employed on the State highways of Pennsylvania. According to the records of the State Highway department there are 12,500 men directly employed by the State maintenance and other operations, and the contractors on over 200 contracts have as many more men at work. These figures are for state roads only and do not include such men as are employed on county or township highways.

It is one of the greatest aggregations of men employed on highway work in the history of the state, and the concerns operating state quarries, sand pits and similar places and the cement works contributing to the supplies of road work have thousands of men also employed.

There are now 240 contracts for road construction awarded by the State Highway Department in force, covering something like 700 miles of construction. In the neighborhood of 150 additional miles are included in the program for the remainder of the year. The next opening bids. August will be for over fifty miles. Construction this year has run close to 140 miles to August 6. In 1923 there were 375 miles built.

The resurfacing work of the Department this year has reached nearly 200 miles, including 247.9 miles of oil-bound macadam.

Thomas Day Family Holds A Reunion At Home Of H. P. Day

Descendants of Thomas Day, one of the early settlers in the southwestern section of Washington county, held their annual reunion yesterday at the home of H. P. Day, about five miles west of Prosperity, there being about 70 in attendance. The day was spent informally, except for a short business session.

Officers were elected as follows: President, H. P. Day, of near Prosperity; vice president, W. N. Day, of Washington; secretary, Miss Anna Day of Washington; treasurer, Dudley B. Hughes, of Washington. The family voted to send L. P. Day of Washington to New Jersey and Washington, D. C., to trace records of the clan. At the close of the business session a talk was made by Rev. Joseph I. Krohn, pastor of the Robinson Run United Presbyterian church, of McDonald. Dr. J. R. Day, T. A. Day and A. Blaine Day were named as members of the committee on time and place for the next reunion, while Velma Day, Thomas Hughes, Alma Day and Raymond Day were named as the committee on athletics.

Dinner was served at noon in picnic style and photographs were taken of the children of the four sons of Thomas Day, the late Hiram, Tarwin, John and Samuel Day. Photographs were also taken of the next generation and then of the entire clan.

KID MCOY PREPARES FOR BIGGEST FIGHT

Los Angeles, Aug. 15. — Norman Selby, the Kid McCoy of pugilistic fame, today was preparing for the biggest fight of his career, with his life as the purse.

Opposing him is District Attorney Asa Keys, who declares he has sufficient evidence to convict the "Kid" of murdering "the only woman he ever loved," Mrs. Theresa Mors, beautiful dealer in antiques, who recently divorced her husband, that she might marry McCoy.

McCoy's own sister, Mrs. Jennie Thomas, appeared before the grand jury here yesterday afternoon, and, according to Keys, testified that her brother, Norman Selby, came to her early Wednesday morning and said: I think I killed Theresa. I have nothing more to live for."

But McCoy denies making any such confession and sticks to his story that Mrs. Mors committed suicide and died in his arms in the apartment where they had been living as man and wife under the assumed names of Mr. and Mrs. N. Shields.

If a formal charge of murder is placed against the former welterweight champion of the world, McCoy's defense will be insanity, says A. D. Knickerbocker, his attorney.

Today in his cell, McCoy, known as one of the gamest fighters who ever entered the "squared ring," who was nine times married and as many times divorced and whose 51 years of life have been filled with adventure, was a broken man, and only able to mutter again and again, "I didn't kill her, I didn't, I didn't."

A chemist's analysis of the skin tissues near the bullet wound which ended the life of McCoy's "only love" will be made today to determine whether or not suicide could have been possible.

As the tests may require some time, the coroner's inquest scheduled for this afternoon may be postponed until it is determined whether or not there are powder marks around the wound, which would be present if Mrs. Mores killed herself, according to County Autopsy Surgeon Wagner.

WELTER TITLE GO LATE THIS MONTH IS ANNOUNCED

The Benny Leonard-Mickey Walker welter-weight championship fight may be held the latter part of this month despite injuries to Leonard's hand. This was announced yesterday by James J. Johnston, promoter, after a conference with the principals.

No date was decided upon however, Johnston asserting that further action had been postponed until tomorrow, when a meeting will be held with the state athletic commission.

"The Queen City"

Cincinnati, which believes that it is one of the most beautiful cities in the western world, calls itself "The Queen City" and "The Paris of America," while to others it is known as "Porkopolis." Chicago, among other names has "The Windy City" and "The Stock Yards City." Washington is "The Federal City" and "The City of Magnificent Distances."

Absent-Minded People

Speaking of absent-minded people, we unearth the fact that Adam Smith, the political economist was also absent-minded. One Sunday morning he walked 12 miles along the king's high way and presented himself in a crowded church clothed solely in his nightshirt.—Alice Mason Johnson, in Brooklyn Eagle.

"The Pottery City"

American cities in great number get their nicknames from their principal industries. Trenton is "The Pottery City"; Troy, "The Collar City"; Fall River, "The Cotton City"; Akron, "The Rubber City"; Hollywood, "The Movie City"; Paterson, "The Silk City"; Waterbury, "The Brass City," and Dansville, "The Nut City."

PITTSBURGH WINNING YESTERDAY REDUCES THE GIANTS' LEAD

That "fourth straight pennant" which fluttered so merrily in the brisk winds of the Giants as they rode high, wide and handsome over their rivals a few short weeks ago was hanging humidly to the pole last evening as McGraw and his cohorts staged a mournful procession from Forbes Field into their murky club house. The deep gloom was born of another Pirate advance gained while more than 20,000 cheered and booed. The Pittsburgh success in the second of the important fight was attended by a score of 3 to 1.

Slowly but surely the once seemingly impassable gap between the historic foeman is being bridged by the Pittsburgh Pioneers. "Where there's a will, there's a way," and surely Our Boys have shown indomitable perseverance in their laudable efforts to dislodge a ruler who has been on the roost too long.

Do Snakes Sting?

Snakes cannot "sting," but they bite. Possibly one reason why people speak about the sting of a snake is because formerly there was some confusion on the point. Shakespeare makes this error many times—as, for instance, in the familiar line "What, wouldst thou have a serpent sting thee twice?" Strictly speaking, it should be "bite thee twice."

Remarkable Echo

If the famous Menai suspension bridge is taken down, as is possible, to be replaced by something more substantial not only will a bridge be destroyed but also a famous echo. The sound of a hammer is repeated from each arch of the bridge and finally from the opposite pier 576 feet away.—London Mail.

Cornelian is often used as a charm. In China it is supposed to cure indigestion. Greeks have worn it to get rid of neuralgia and rheumatism and it is generally regarded as one of evil's antidotes.

Cave of Adullam

Tradition places the cavern of Adullam to which David fled to escape from the persecution of Saul, in the hill country of Judea, about six miles southeast of Bethlehem. It is capable of holding several thousand people. The year 1062 B. C. is given as the date of David's flight.

ATHLETIC EVENTS WILL BE FEATURE DE MOLAY OUTING

Many athletic events have been prepared for the DeMolay outing to be held at West View Park, Pittsburgh, next Saturday. The games have been classified in order that all boys may have an opportunity to participate. One tug of war has been arranged for a team from Joppa chapter of Washington and the boys are now picking out the big fellows to have part in this event. Sufficient names have not been secured to guarantee a special car to the big outing and those who have not notified the scribe are urged to do so at once. Honesty

As soon as man's eyes are opened to the fact that honesty in thinking and acting pays the highest rewards to heart and soul and body, that honesty is the tap-root of all efficiency, and that no efficiency is possible without a fearless desire for an honest measure of values in all things, we shall start on a new era in our land.

WHITE MULE" COMMON.

An amusing story comes from Kansas which recalls an article published last May by E. W. Howe, the well-known Kansas journalist, who said that everywhere in his state good citizens disregarded the Federal prohibition law "because they believe their rights are invaded." He also said that "white mule" (moonshine whisky) is "very common in almost every community because it is so easily made" and that he knew women [illegible] they 'put over' oat meal for breakfast." He added that "with ginger ale 'white mule' is a palatable drink, has a big kick, and many men buy it by the barrel in order to be bigger devils than their neighbors."

But it would appear that the town of Olathe is an exception. There "white mule" does not flow freely all over the place; apparently that community is as arid and thirsty as even Mr. W. T. Anderson in his Sing Sing cell would rejoice to have it. For we read that when recently the rumor swept through Olathe that on the grounds of the Amusement Company a well full of "white mule" had been discovered, the citizens dropped their daily tasks, grabbed buckets and kegs, and "everybody started" for the scene. But, alas, the thirsty Olathians got nothing for their tumultous haste and pains, and returned sheepishly to their employments, digesting as they went the truth which reads as follows: "Joe Crane was cutting weeds with his team of white mules, and the weeds were so high he couldn't see the well and one of his mules fell in and was drowned, and the story got twisted on its way downtown." It is hinted that the tale was "twisted" purposely in order to test the virtue of the Olathians, who now mourn to think that they fell for it, and in the full glare of publicity at that!

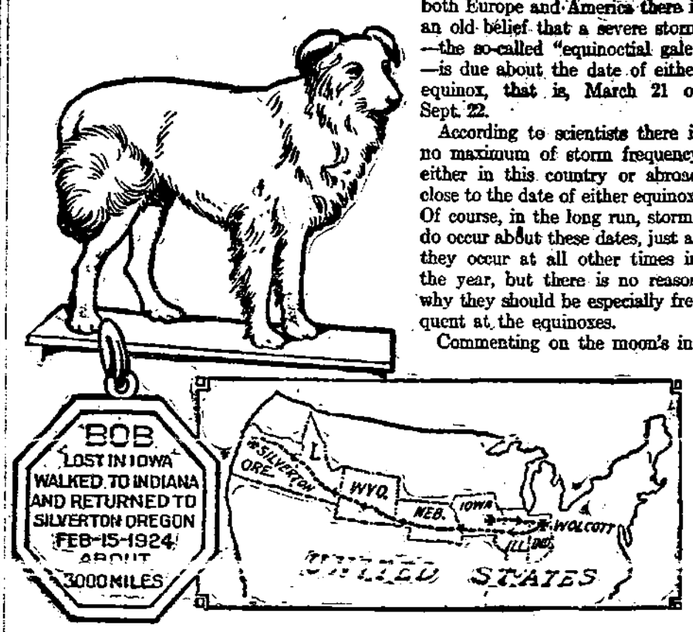
Dog Travels Three Thousand Miles to Home and Gets Medal

Bob, a Scotch collie, recently traveled approximately 3,000 miles to return to his home in Oregon after having been lost in the middle west. Its owners had taken it with them on an automobile trip, and while they were crossing Iowa, Bob strayed away. After an unsuccessful search, they went on to Indiana and then drove back to the Pacific coast, never expecting to see their pet again. Six months after their return, Bob came trotting home, weak from fatigue, footsore and with claws worn short. It developed that the animal had trailed the automobile from Iowa to Indiana and then had started back on the long trip to Oregon. The state humane society, after investigation, presented the dog with a medal and school children petitioned the village council to give it the freedom of the streets for the rest of its life.



Weather Superstitions Are Disproved by Science

Several common superstitions concerning the weather have been dispelled by the weather bureau at Washington. In both Europe and America there is an old belief that a severe storm —the so-called "equinoctial gale" —is due about the date of either equinox, that is, March 21 or Sept. 22.

According to scientists there is no maximum of storm frequency either in this country or abroad close to the date of either equinox. Of course, in the long run, storms do occur about these dates, just as they occur at all other times in the year, but there is no reason why they should be especially frequent at the equinoxes.

Commenting on the moon's influence on the weather, the bureau says: "Modern science is unable to find any evidence that the moon affects the weather to an appreciable extent, and is unable to conceive of any reason why it should." The belief in "dry" and "wet" moons, indicated by the position of the lunar crescent in the evening sky, and a host of other notions are denounced as merely idle superstitions.

Eliminating Jacks in Receiving Sets

When tuning in stations most people use the amplifiers from the start, turning the filaments down low while using the phones and turning them up while using the loud speaker. Therefore, the use of a separate jack for the detector and first-stage amplifier is often unnecessary and a useless expense. Besides this, the use of two or more jacks adds to the complication of the construction and requires much more soldering than if only one jack were used.

Handy Orchard Ladder

Pruning and fruit picking can be accomplished in a shorter time and with less damage to the trees with the specially devised ladder shown in the illustration, than is possible with the use of an old-style ladder. Upon the upper end of a common ladder a forked extension, made from a length of 2 by 2-in. oak and two lengths of tire iron, is hinged to swing up and down. It is controlled from below by a lever and ratchet fastened to the side of the ladder, about 4 ft. from the lower end, a discarded cultivator lever being used for the purpose. The lever is connected to the extension by means of a ½-in. steel rod, so that the movement of the lever causes a corresponding movement of the extension. The object of the extension is to hold the ladder at convenient distances from the trunk so that any part of the branches can be reached. The extension, being inserted in a crotch, will form a safe support and prevent such damage to the tree and fruit as might result from forcing an ordinary ladder between the branches.

BAMBY BREAD MAKES BIG HIT HERE

In keeping with Charleroi's reputation for getting the latest and best, the last word in bread is now being produced here by the Stevenson Bakery.

"Bamby Bread," which has just scored such a big hit in the east is now ready for the tables of our townsfolk. For some time past, Mr. Stevenson has been looking about the country for some new idea in bread making. His tour of investigation took him through New York state, the eastern part of Pennsylvania, and the New England states and in so many places visited by him he saw the slogan "Bamby Bread," made with pure creamery butter. Mr. Stevenson decided that this is what he wanted to supply the trade.

Wednesday all was in readiness for the production of "Bamby Bread," and Mr. Stevenson gave samples of this super-delicious loaf to his old and new friends among the grocers. They were unanimous in its praise.

Number of Bees in Swarm

The estimates of the number of bees in a swarm range all the way from 10,000 to 100,000. However, it is admitted that a swarm of bees containing 75,000 or 100,000 is an exceedingly large colony. The normal colony contains between 15,000 and 30,000 workers, although swarms containing 40,000 or 50,000 are not uncommon in carefully attended apiaries. The drones may number from a few dozen to several hundred.

Buys Book He Lent

Charles Gannon, of Washington, had occasion to refer to Max Maretzek's "Crochets and Quaver," the reminiscenses of the famous impresario. Gannon then recalled that he had once owned a copy of the book but had lent it 25 years ago. Like many a good book lent it never came back. He went to the bookstore to see if he could buy a copy. Lo and behold, the clerk handed him his own autographed copy of the book.

Thrift of Time

Gladstone, when prime minister of England, remarked: "Believe me when I tell you that the thrift of time will repay you in after life with a usury of profit beyond your most sanguine dreams, and that the waste of it will make you dwindle, alike in intellectual and in moral stature, beyond your darkest reckoning."—Time.
